

8th April 2020

Dear Parent/Carer

Visit Cancellation

Geography Residential to the Bay of Naples, Italy. 23-26 April 2020

On the 6th April, the Foreign and Commonwealth Office updated their advice regarding travel abroad. The current advice is now as follows:

“As countries respond to the COVID-19 pandemic, including travel and border restrictions, the FCO advises British nationals against all but essential travel”.

As a result of this update, we regret to inform you that the planned visit to The Bay of Naples 23rd-26th April 2020 has been cancelled. Student safety is of the utmost importance to us and it would not have been safe to go ahead with this visit.

We want to again reassure you that our trip is covered by comprehensive travel insurance that does cover Government travel restrictions. Please be assured that we are now working to the best of our ability to ensure that refunds are received in as timely a manner as is possible. Please be aware that this could be a lengthy process. We thank you for your continued patience throughout this difficult process and will be in touch again once we have more information regarding refunds.

Yours faithfully,

Miss E. Hayes
